

CORPORATE OVERVIEW

WHO WE ARE

capSpire is a leading global technology consulting firm empowering energy, commodities, and capital markets organizations to achieve measurable outcomes from their trading, risk, and treasury management platforms. Through Advisory, Delivery, and Operations & Support, we help clients strengthen trading and risk capabilities, modernize treasury operations, and accelerate digital transformation.

What sets capSpire apart is the depth of our specialist expertise. Our consultants bring decades of client-side industry experience, practical delivery knowledge, and a platform-agnostic approach to complex business and platform challenges, enabling better decisions, AI-driven insight, faster response to market change, and reduced operational risk.

MISSION

We build lasting partnerships with energy and commodity businesses to derive value through agile trading, resilient, future-fit technology, and genuine expert collaboration.

PURPOSE

We exist to help energy and commodity businesses thrive.

CROSS-PLATFORM EXPERTISE, CLIENT-FIRST FIT

Our consultants recommend and deliver what fits each client best, drawing on cross-platform, cross-technology expertise to solve complex trading, risk and treasury challenges, whatever technology stack a client runs on today.

OUR PILLARS

capSpire's three pillars work together to help energy and commodity organizations move faster, reduce risk, and get more value from their trading technology investment.

ADVISORY

Expert-led services that accelerate growth and digital transformation across the trading, risk and treasury technology stack, from operating model design to technology strategy and change leadership.

DELIVERY

End-to-end implementation, upgrade and health check services that take clients from blueprint to go-live, backed by the capSpire Delivery Framework.

OPS & SUPPORT

Ongoing trading technology support (L1 to L3), end-of-day as a service, business process support, and testing and automation, keeping mission-critical systems running at their best.

DIGITAL & AI ACCELERATORS

Proprietary accelerators bring an innovative edge to every engagement, from AI-driven strategy and cloud readiness to data-to-decision intelligence, advanced risk analytics and agile digital engineering, augmenting the value of our Advisory, Delivery, and Ops & Support service offerings.

WHY CAPSPIRE?

RIGHT BREADTH OF SERVICE

Full-service expertise across Advisory, Delivery, and Operations & Support. We work with clients from the first strategy conversation through to long-term operational stability, applying industry knowledge earned from years on the client side of the business.

RIGHT DEPTH OF EXPERTISE

Our consultants bring practical delivery knowledge and hands-on experience, including time on trading desks and in trading, risk and treasury technology delivery. We build bespoke teams around specialist domain expertise.

RIGHT RELATIONSHIPS

We prioritize impact over project delivery. Long-term, trust-led relationships with clients and partners mean we solve problems at pace, not just to scope.

RIGHT FUTURE FOCUS

A platform-agnostic approach, proprietary digital accelerators, and AI-driven insight help clients respond faster to market change, make better decisions, and reduce operational risk, identifying tomorrow's opportunities.
